

PTFE Sheets

This sheet is the PTFE material that is made by compression molding.

We offer sheets with the thickness from 0.5 - 70 mm.

Main Features:

- Excellent non-adhesive property
- Electrical insulation
- Low friction
- Heat resistance
- Chemical resistance

***Products containing various filling materials and with non-standard sizes also can be produced. Please feel free to contact us info@orientfluoro.com for inquiries.**

Sheets

Thickness(mm)	Long x Width (mm) / Kg			
	1000 x 1000	1200 x 1200	1500 x 1500	2000 x 1000
0.5	1	-	-	-
1	2.2	2.8	5	4.5
1.5	3.3	4.6	5.5	7.5
2	4.5	5.5	6.8	9
2.5	5.5	7.9	8.9	11.5
3	7	8.5	11	14
4	8.5	11	13.5	17
5	10.5	12.5	17	21
6	13	15.5	20	26
8	19.3	27.5	40	35
10	24.1	34.4	50	44
12	28.9	41.3	59.5	62
15	36.5	51.6	74	66
20	47.5	67.9	99	88
25	59.4	84.9	123.5	110
30	71.3	101.9	148.5	132
40	95	135.9	198	176
50	118.7	169.9	247.5	220
60	142.5	210	297	264
70	168.2	238	346.5	308

Additional Information:

- Thickness < 6 mm = skived sheet, ≥ 6 mm = moulded sheet
- Other dimensions and materials are available on request
- Weights Approximate values, products are sold by actual net weight
- Cut-to-size formats available for all sheets
